

[Ihre professionelle Oberfläche]

We are special... for your personal and individual unique floor:

Colouring with IRSA Platinum 2C Öl-Grundierung, colourless or coloured, and over-sealing with all IRSA Platinum 2C Parquet Water Varnishes (silky-mat, ultra-mat, extreme-mat, highly gloss)

- Allows an exclusive and unique design for old and new floors
- Very simple use
- Can be over-sealed with all highly stressable and lightfast IRSA Platinum 2C Parquet Water Varnishes in silky-mat, highly-gloss, ultra-mat or extreme-mat
- Environmentally-friendly and sustainable system
- Many colour tones and also special tones are possible

Contrast to mass goods

To own something which is only limited available or almost unique in the world, gives a special attraction. An individually designed floor is very special and is a contrast to mass goods which are available all over the world. The uniqueness and individuality push through, as the people want something special.

Unique, individual design with IRSA Platinum 2C Öl-Grundierung, colourless or coloured

Whether wood, bamboo cork floors or other surfaces in the interior area, a new or used parquet floor can be renovated cost-efficiently without great effort and this can result in an exclusive design. The appearance and the glowing of wood can be easily adjusted to the new design as the different colours of the IRSA Platinum 2C Öl-Grundierung can be mixed with each other at every ratio.

After a drying time of at least 24 hours of the IRSA Platinum 2C Öl-Grundierung, the UV-resistant IRSA Platinum 2C Parquet Water Varnishes (IRSA Platinum 3010 2C Parquet Water Varnish, silky-mat, IRSA Platinum 3030 2C Parquet Water Varnish, ultra-mat, IRSA Platinum 3055 2C Parquet Water Varnish, highly-gloss or IRSA Platinum 2C Nature Feeling, extreme-mat) is applied in three layers – depending on the desired gloss level. The colour fastness is kept and the surface is permanently protected against very strong abrasion and dirt. Depending on the gloss level – we offer agreed care and maintenance products in gloss to mat.

Subsequently, you can see an overview of some of the possible colours and mixtures on oak parquet. Especially popular are natural tones, such as white, light sand, mud, transparent nature or grey in different intensity levels.

We wish you a lot of fun with your personal and individual unique floor.

Yours IRSA Team

IRSA is your competent partner for water varnishes and traditional sealers, oils, waxes, care and maintenance products, accessories for wood, parquet and cork floors.

White parquet floors with striking white and grey fields for the Fashion and Sports House Reischmann in Memmingen.

The total surface of 700m² was initially coloured with the white IRSA Platinum 2C Öl-Grundierung (Oil Primer). IRSA Platinum 2C Öl-Grundierung is a 2 component High-Solid oil combination. IRSA Platinum 2C Öl-Grundierung is available in white, black, colourless, light grey, teak, anthracite, wenge and oak. Special tones are available on request.

IRSA Platinum 2C Öl-Grundierung can be over-sealed with all IRSA Platinum 2C Water Varnishes (Platinum 3010, silky-mat, 3030, ultra-mat, 3055, highly-gloss or Platinum Nature Feeling, extreme-mat). Striking fields were applied with the IRSA Platinum 3010 in grey and white coloured onto the colourless IRSA Platinum 3010, silky-mat.

We are the surface!
