IRSA LAMINATREINIGER

Skin preserving cleaning agent for basic cleaning and regular support in maintenance for all laminate floors and surfaces.

Characteristic:

IRSA LAMINATREINIGER is for gentle cleaning, removes dirt, grease and marks left by shoe heels, a special maintenance of the surface without layer composition, odourless and slip-resistant.

IRSA LAMINATREINIGER preserves a long-lasting beauty of the floor. For high adhesive dirt and final construction-cleaning use IRSA Base Cleaner G88.

Application:

For a regular support in maintenance and cleaning with IRSA LAMINATREINIGER, the floor to be treated must be completely free of sand or dirt first (use IRSA Blitzboy or brush-side of a vacuum-cleaner). Depending on the grade of dirt mix approx. 50-100ml of IRSA LAMINATREINIGER into 10 litres of clean water. Following wipe the surface with a good wrung out cloth.

Do not polish after drying! Remove high adhesive dirt, grease, spots or marks left by shoe heels with IRSA LAMINATREINIGER undiluted and a soft, white pad. Afterwards re-wipe the floor with a moist tissue.

Tips and Tricks for Cleaning:

- Work with two buckets: one for wiping-water with IRSA LAMINATREINIGER, the other to wrung out wipe-cloth.
- Only wipe with good wrung out cloth to avoid a penetration of water into the edges and swelling of the floor.
- Only use IRSA LAMINATREINIGER to achieve best results in maintenance and cleaning.
- Do not mix IRSA LAMINATEINIGER with other products.
- Frequency of maintenance and cleaning depends on the grade of dirt.

Optimal Room-Climate:

To save the value of a laminated floor, care for a healthy room-climate (+20°C and 55% air-humidity).

Substances of Content according to EG-Recommendation:

5% non-ionic-detergents, supportive agents and scents.

Caution:

Keep out of the reach of children.

The advice given by us in word, writing and endeavour for the technical application is supplied to our best knowledge, but may, however, only be regarded as an indication without any obligation and does not exempt you from examining the supplied products yourself, if they are suitable for the procedure and purposes intended. Application, use and processing of the products are not within our range of control and supervision, but are at your responsibility exclusively. It goes without saying that we guarantee products of high and good quality, according to the samples. With the publishing of new information the earlier technical data sheets loose validity.
